

Contractor SSH&E Forum

Oil industry contractor service provider management are cordially invited to attend ExxonMobil Canada's Hebron Project and Hibernia Operations 2009 Contractor SSH&E Forum. The purpose of the forum is to share and promote best practices in Safety, Security, Health and Environment (SSH&E) for the benefit of the broader community. The forum will be held on **June 30th at the Delta Hotel, St. John's, Newfoundland, Canada.**

The theme will be "**Excellence through Partnership**". The theme is intended to promote sharing of experiences and learning's that will allow our organizations to systematically improve SSH&E performance. We have targeted management from each organization as desired attendees because they are in a position to lead change in SSH&E culture, philosophy, behavior, etc. In the event you cannot personally attend, we invite you to nominate an alternate Management representative to represent your company at the forum. In addition to management, we also welcome your senior SSH&E representative to attend as well.

Additional information and a final agenda will be provided at a later date. We look forward to seeing you at the Forum and working together in partnership to take SSH&E to the next level.

Glenn Scott

President, ExxonMobil Canada

Hareesh Pillai

Senior Project Manager, Hebron Project
