

HEBRON NEWS COMMUNITY UPDATE

Hebron Project Issue 2 - Spring 2013

Community Recycling Program

The Hebron Project launched its Community Recycling Program fall 2012. The first donation of 4000+ cans and bottles was made to the 50-Plus Club in Sunnyside (see photo below). Several other community groups are participating in the program and a different group will receive the recyclables each time.

Junior Achievement

Hebron was pleased to partner with Junior Achievement to deliver their “Economics for Success” program to Grade 9 students at Clarenville Intermediate High School in December and Pearce Junior High in Marystown in March. The “Economics for Success” program explores personal finance and students’ education and career options based on their skills, interests, and values. The interactive components of the program help teens set up a practice budget, build a resume, prepare for an interview and participate in mock interviews. The program generated good discussions balanced with interactive and often entertaining practical exercises!

For more information on Junior Achievement and their programming, visit their website at jacan.org.

A Helping Hand

- Just before Christmas, employees at Bull Arm organized the “Elf Challenge: Food and Toy Drive” to help families in need in the Bull Arm area. The drive was very successful! Site employees donated nearly \$4500 in cash, brought along hundreds of dollars’ worth of toys and filled more than 30 large shopping bags with non-perishable food items. The Regional Action Committee on Housing (REACH) and the Salvation Army helped distribute the goodies!
- Hebron employees volunteer each month with Tricentia Academy’s “Kids Eat Smart” Breakfast Program, cooking and serving a hot, nutritious breakfast to the students at the school.

What's New?

GBS

- Steel skirt placement in the GBS was completed fourth quarter 2012.
- Rebar placement began in February 2013.
- The first concrete was poured May 2013.

View of the GBS taken May 2013

TOPSIDES

- Topsides completed the early works phase of building and facility upgrades at Bull Arm first quarter 2013.
- Fabrication of the living quarters module started in first quarter 2013 with first steel cut at the Metal World fabrication facility in Torbay.

TEMPORARY CAMP

The temporary camp opened in January providing accommodations for 73 people. Camp capacity expanded to 130 in March. As other phases are developed we will be able to provide accommodations for 750+ people by summer 2013.

WORKFORCE ON SITE

At the end of May there were approximately 1,750 personnel working at the Bull Arm site.

Bull Arm Bus Tours

From July to October, we will be offering public bus tours of the Bull Arm construction site. Tours will be offered Tuesdays and Thursdays at 10:00am and 2:00pm, and on the 3rd Saturday of each month at 10:30am. Advanced bookings are recommended. Some exceptions apply; for further information please visit www.hebronproject.com.

Contact Us

The Hebron Information Centre is located at the TCH entrance to the Bull Arm Site (Nalcor Building). Community Relations staff are generally available Monday-Friday during regular business hours.
