

EXPRESSION OF INTEREST

Supply of Cuttings Re-Injection Services and Drilling Drains Services

Reference: WS2941594

BIDS Categories: 0209, 0224, 0903, 0936, 0963, 9450, 9452, 9458

Issue Date: July 23, 2015

Closing Date: August 6, 2015

Overview:

- ExxonMobil Canada Properties, a partnership (ExxonMobil) is in the process of pre-qualifying companies who can supply Cuttings Re-Injection and Drilling Drains Services for their onshore and/or offshore Newfoundland and Labrador requirements.
- Contractor shall provide all management, personnel, processes, materials, tools, equipment, applicable certifications and facilities as may be required to ensure all equipment covered by this pending Contract shall be fabricated and supplied to meet all statutory requirements, codes of practice and applicable specifications.
- The intention is to have this scope of work cover the requirements of the Hebron Project. For clarity, the scope of work includes not only the foregoing, but may include at ExxonMobil's discretion, future work related to minor changes to the scope of work described herein, in which ExxonMobil may engage onshore or offshore Nova Scotia and Newfoundland and Labrador, for oil and gas facilities
- While not planned, it should be noted that the resulting RFP and contract may require inclusion of and/or extension to other operators in the area, project co-venturers, contractors and/or affiliated companies.
- For work related to the Hebron Project, ExxonMobil supports providing opportunities to Canadian, and, in particular, Newfoundland and Labrador companies and individuals, on a commercially competitive basis. Contractors expressing interest in providing services or materials, if they are selected to bid, will be required to complete a Canada-Newfoundland and Labrador Benefits Questionnaire at the bid stage. ExxonMobil Canada Properties, a partnership (ExxonMobil) encourages the participation of members of designated groups (women; Aboriginal peoples; persons with disabilities; and members of visible minorities) and corporations or cooperatives owned by them, in the supply of goods and services.

Supplier Diversity

Diverse Ownership (Completion of this section is voluntary)

A Diverse supplier is a business that is at least 51% owned and controlled by a member(s) of one or more of the four designated groups identified in Canadian employment equity legislation:

- Women
- Aboriginal peoples
- Visible Minorities
- Persons with disabilities

Please indicate above which designated group(s) are applicable to your business.

Certification for Diverse Businesses

There are currently national certifying organizations that cover certification for businesses owned by:

- Aboriginal Peoples
- Visible Minorities
- Women

The Projects will continue to look for organizations that can provide certification support to businesses owned by persons with disabilities.

If you indicated that your business is owned by a member of a designated group, are you currently certified as a diverse-owned business? Yes No

Through which certifying organization is your business certified? _____

If you are a NL registered business and are not currently certified, would you be interested in learning more about certification? Yes No

The Hebron Project has a vendor database that is used to identify possible suppliers and contractors to participate in the project. Suppliers and contractors are encouraged to register.

ExxonMobil Canada Properties, operator of the Hebron Project, will use the database beyond development/construction, into the operations phase of the project. We also see value in expanding use of the database to the Hibernia and Hibernia Southern Extension projects, as well as project co-venturers and co-owners should they request information. The increased visibility to three major projects and other noted industry participants may be of value to your organization as it has the potential to increase future procurement opportunities.

DISCLAIMER: By registering your company in the vendor database, you are consenting to making your information available to the parties noted above in addition to the Hebron Project.

NOTE: Registration in the database does not imply that a supplier or contractor is approved as a qualified supplier, nor does it indicate that a supplier or contractor is included on any tender or bid list for the supply of goods or services for which it has registered.

Scope of Work Overview:

Drilling and Completions Overview:

- The Hebron Development comprises five pools.
- The drilling package will contain 52 slots.
- Platform wellbores will have three-dimensional trajectories with long horizontal sections requiring extended reach drilling (ERD) profiles.
- Project will consist of:
 - Oil Producer wellbores with open hole screen completions and gas lift completion designs with downhole chemical injection
 - Water injection wellbores with either cased hole or open hole screen completions
 - Gas injection wellbores with either cased or open hole screen completions

The scope of work/supply includes, but is not limited to:

Provision of a cuttings re-injection service and a drilling drains service for the purposes of executing drilling operations for offshore wellbores drilled from the Hebron Platform, in the Eastern Canadian Grand Banks environment offshore Newfoundland and Labrador. The Work shall include all personnel necessary for the operation of the cuttings re-injection system and the drilling drains system, as prescribed by Company. The Work shall also include all necessary onshore support infrastructure and personnel necessary to support offshore operations including engineering services. This set of specifications is limited to Hebron Platform operations.

Cuttings re-injection operations will be conducted from a company owned cuttings re-injection package incorporated into the Hebron facility. Supply of the cuttings re-injection system for the Hebron Platform is not considered as part of the scope of supply herein.

The successful vendor responsibilities shall include, but not be limited to, the following:

1. Provision of experienced, trained, and competent personnel to operate, manage, and maintain the cuttings re-injection system and drilling drains system on the Hebron Platform,
2. Provision of suitable engineering and project support for carrying out all re-injection services including cuttings re-injection monitoring, verification of cuttings re-injection performance, and analysis of injection data,
3. Operation and maintenance of cuttings re-injection equipment on the Hebron Platform.

Additionally, the selected contractor will be required to meet all technical and Safety, Health, Environmental, and Security (SHE&S) specifications and safe work practices of ExxonMobil and its affiliates as appropriate.

Additionally, the selected contractor will be required to meet all technical and Safety, Health, Environmental, and Security (SHE&S) specifications and safe work practices of ExxonMobil and its affiliates as appropriate.

Minimum Technical Requirements

Minimum Technical Requirements, and Contractor's ability to fulfill such requirements, shall be established at a later date.

Submission Requirements

Vendor submissions in response to this Expression of Interest **must** include the afore-mentioned reference number, as well as the following information:

1. Information demonstrating qualification for the Scope of Work detailed above.
2. Describe your experience operating under and familiarity with, the benefits provisions of the Canada-Newfoundland and Labrador Atlantic Accord Implementation Acts and your experience with any similar regimes in other parts of Canada or internationally. At the RFP/ITT stage, bidders will be required to indicate how they comply with the above.
3. Please acknowledge that responsible management personnel have read, understand and will support requirements to comply with the following where applicable:
 - i) Section 45 of the Canada-Newfoundland and Labrador Atlantic Accord Implementation Act
 - ii) The Hebron Benefits Agreement and Hebron Benefits Plan work requirements

The data submitted will be used to do a preliminary evaluation of your company's ability to perform these services. Additional evaluation in the form of a prequalification should be anticipated in advance of ExxonMobil finalizing a bidders list.

This Expression of Interest (including pre-qualification) is not a pre-qualification of contractors for other ExxonMobil work, but is limited to the scope aforementioned. In addition, participation in this Expression of Interest (including pre-qualification), including any statements whether oral or written between ExxonMobil and your company, shall not create or be deemed to create any binding legal relationship or contract, or be construed to do so between ExxonMobil and your company. All costs associated with the preparation of your response to this expression of interest shall be at your expense.

This Expression of Interest (including pre-qualification) may or may not result in the issuance of an RFP/ITT and may or may not result in the award of a contract. If you respond to this Expression of Interest (including pre-qualification) and your company is selected to be on the bidders list, your company name and contact information may be posted on public websites. Similarly, if you are selected for award, the same information may also be posted, indicating that the work has been awarded to your company.

Responses must be submitted electronically by the closing date to the ExxonMobil e-mail address noted below:
