## BULL ARM UPDATE

Hebron Project Issue 7 - Fall/Winter 2014

### Hebron Helps with Back to School

In August, Bull Arm site employees held a cash drive to raise money for school supplies for local students in need. In addition to the \$3500 raised by employees, Hebron also made a corporate donation of \$5000.

The funds were provided to Swift Current Academy and Tricentia Academy, who in turn, purchased school supplies and helped subsidize the costs of field trips for students.

Alison Zabik, Living Quarters Deputy Delivery Manager, ExxonMobil (left) and Lori-Ann Upshall, Principal of Swift Current Academy

L-R: Devin Huber, Topsides Civil Works Lead, ExxonMobil, Peter Velez, GBS Construction Site Manager, ExxonMobil and Russ Peddle, Principal of Tricentia Academy

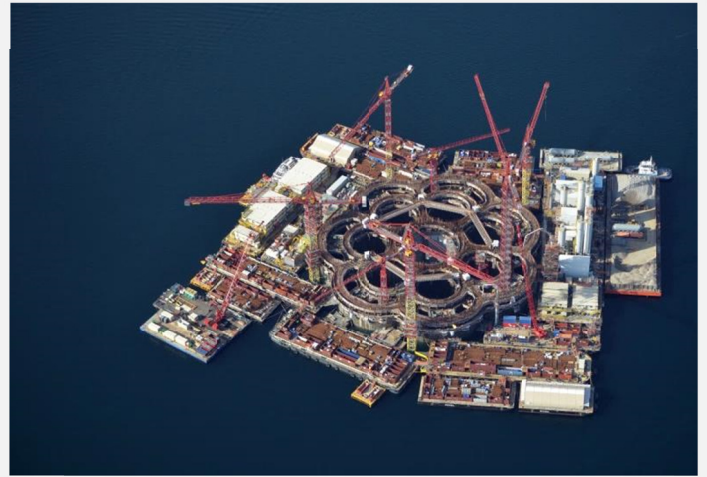

Anna Balan, 5 year old daughter of Ben Balan, Hebron's Quality Advisor and Certification Lead, reading about Bull Arm in ExxonMobil's recently published children's book **MJ's Great Adventure**. In the story, MJ the moose and his animal friends visit the Bull Arm site where they see the GBS being built and the Living Quarters being assembled. The book encompasses messages on safety, environmental protection and diversity. Copies are available at the Hebron Information Centre.

We have completed more than 30 million person hours on this project without a lost time injury.

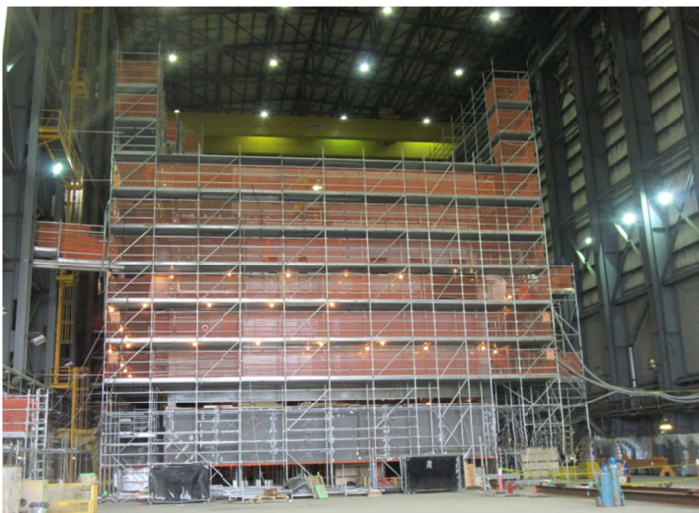

On October 23<sup>rd</sup>, the Hebron Project successfully completed its largest concrete slipform operation, at the deep water site, bringing the ice walls, storage cells and centre shaft to a height of 71 m. The continuous 24/7 operation lasted 36 days and is the second largest of its kind ever completed.

Aerial view of the flotilla of barges surrounding the GBS. The barges contain two batch plants, office space, lunch rooms, rebar, sand, aggregate and other materials required to support construction. Three ferries transport workers to and from the ferry terminal located at Back Cove.

Living Quarters, Levels 1-4, in the Topsides Module Hall.

Concrete placement on the Topsides pier as part of upgrades.

## Contact Us

The Hebron Information Centre is located at the TCH entrance to the Bull Arm Site (Nalcor Building). Community Relations staff are generally available Monday-Friday during regular business hours.
