## HEBRON NEWS COMMUNITY UPDATE

Hebron Project Issue 1 - Winter 2013

## WELCOME!

Welcome to the first issue of *Hebron News* – *Community Update*! We want to keep local area communities informed of Hebron Project progress. We will use this newsletter to share pictures of the work sites, progress on construction and fabrication, our community involvement and much more.

#### **Arnold's Cove Green Team**

The Hebron Project was the proud sponsor of the **Newfoundland and Labrador Conservation Corps' Green Team** initiative in **Arnold's Cove** this summer. Four local area students were employed by the project and were involved in beach cleanups, building and erecting nesting boxes along hiking trails, identifying bird species and promoting environmental and conservation awareness in the community.

#### **Community Involvement**

Hebron was pleased to be one of the sponsors of the **Sunnyside Truce Sound Festival** in August. The Festival celebrated the 400<sup>th</sup> anniversary of the historic meeting of Governor John Guy and other colonists from Cupids with a group of Beothuk near Frenchman's Island in Sunnyside harbour. Congratulations to Sunnyside on a successful festival!

**HEBRON'S LEGACY:** Promoting the development of local skills and industry capability for the communities in which the Project operates and for the Province.

#### **GBS Early Works**

The focus of 2012 was on early works activities at the site. KKC, the GBS main contractor, constructed the bund wall and the area was then drained to create the dry dock (see photos at right). New batch plants have been constructed, roads have been upgraded and several existing buildings have been refurbished. It has been a busy and productive year! Our next challenge – building the GBS and Living Quarters.

# What Are We Building?

Below is a representation of what the GBS and Topsides will look like on completion.

### Topsides

The living quarters module contract has been awarded to NECL /Apply Leirvik ("NEAL" Partnership). The living quarters will provide accommodations for 220 personnel offshore during operations. Fabrication will start early in 2013.

The Topsides assembly hall is pictured below.

## **Bull Arm Trades**

If you are a skilled trades person interested in working at the Hebron Project please register today at **bullarmtrades.com**.

#### **Community Relations Personnel**

Our Community Relations personnel are located in the Hebron Information Centre (Nalcor Building), located at the TCH entrance to the Bull Arm site. If you have a question relating to the Hebron Project, please drop by to visit one of our Community Relations personnel or call 709-463-1033. They'll be happy to help!

They also maintain listings for local area rentals. Drop by the Information Centre if you are looking to list or interested in renting in the local area.
