

EXPRESSION OF INTEREST

Provision of Third Party Equipment Manufacture Surveillance Services – Hebron & Hibernia Southern Extension Projects

BIDS Categories: 9477

Issue Date: October 25, 2010

Closing Date: November 08, 2010 (4:00 pm NL)

General Requirements:

ExxonMobil Canada Properties, a partnership (EMCP) is seeking qualified contractors interested in providing Third Party Equipment Manufacture Surveillance Services in support of the Hebron and Hibernia Southern Extension Projects.

There is no guaranteed minimum amount of work.

Contractor Qualifications:

Responding contractors must be qualified to conduct the work outlined in the Scope of Work - Overview. All work conducted must be in compliance with ExxonMobil Safe Work Practices and Procedures.

The attached Scope of Work – Overview is, as suggested, only an overview. A detailed Scope of Work will be provided as part of the bid package associated with this Expression of Interest.

Scope of Work – Overview:

The scopes of these services include but are not limited to:

- Sub-sea production equipment, eg: Xmas-Trees, umbilicals, pipelines and flow-lines, risers, TGB's, PGB's, UTA's, SDU's, and sub-sea control systems.
- New Build topsides oil and gas production equipment which can include Power Generation Packages, Gas Compression, Water Injection, various types of pressure vessels, electrical components, and various other mechanical and electrical packages.
- Concrete Gravity Base Structures materials and mechanical packages.
- Off-loading Systems.

Activities to be undertaken on behalf of client for the above at a minimum would be:

- Ensure that required delivery dates are respected and met.
- Carry out Audits as requested.
- Attendance at pre-production meetings.
- Monitoring of engineering.
- Input into sub-supplier surveillance programs.
- Monitoring of manufacture process through ITP's.
- Attendance at Factory Acceptance Testing.
- Final equipment acceptance.
- Documentation approval and order close out.

All vendors responding must have resources necessary to effectively execute the above scopes of work and, in addition, well documented experience in executing Subsea, Topsides, and GBS, surveillance programs on both a local and global basis.

Canada-Newfoundland and Labrador Benefits:

ExxonMobil Canada Properties (EMCP) strongly supports providing opportunities to Canadian and, in particular Newfoundland and Labrador companies and individuals on a commercially competitive basis. Pre-qualified vendors will be required to complete a Canada/Newfoundland & Labrador Benefits Questionnaire at the Tender Stage.

Diversity:

ExxonMobil Canada encourages the participation of members of designated groups, and corporations or cooperatives owned by them, in the supply of goods and services.

Submission Requirements:

Vendor submissions must include the following information:

1. Completed ExxonMobil / Hebron Vendor SHE pre-qualification questionnaire. (Available through BIDS – see contact information below.)
2. Information demonstrating that vendor can meet minimum technical requirements if minimum technical requirements are detailed above. Otherwise, information demonstrating qualification for the Scope of Work detailed above. Completed Supplier Capability / Technical Questionnaire. (Available through BIDS – see contact information below.)

The data submitted in response to the aforementioned questionnaires will be used to evaluate your company's ability (and those of your preferred sub-contractors / vendors where applicable) to perform these services or provide these materials.

Finally, it should be clearly understood that this Expression of Interest / Prequalification may or may not result in the issuance of and RFP/ITT and may or may not result in the award of a contract.

Detailed responses to the EOI should be directed in duplicate (1 original and 1 copy) in a sealed envelope to the following address by closing date:
